We hear of about \$500,000 or \$600,000, mostly in American Gold, having been ordered for the Boston steamer. The Aspwinwall steamer, due on Wednes day, will, it is generally expected, bring a million, but should the amount be only three quarters of a million, it will, no doubt, supply the demand of the present The 1st inst. having been Sanday, the steamer did not leave San Francisco until Monday. The election for Directors of the Harlem Road takes

place on the 15th May. It will be necessary for stock-holders to be careful in giving proxies for this election, as there will be two tickets made up, and their prexies might not be voted on as they would wish. A Committee was appointed at a meeting in August last, to make up a suitable ticket, but have not yet, we believe, done so, although they have recently had several meetings. Some of the stockholders beld a meeting on the 19th inst , and appointed Mesers, S. T. Carey, Alfred Seaton, and J. F. Gourlie, a Committee to make up a ticket and submit it to the stockho'ders The meeting also recommended that the stockholders should send in to the Committee a revocation of their
